

The business model.

Unit economics · three years · shares · how we grow · our first creator

We keep **€6** of every **€10**.

A **61% gross margin** on every subscriber, every month.

THREE-YEAR PROJECTION

By year three: 5,300 customers.

120

creators working with us

5,300

people paying every month

€420k

revenue a year

It all rests on one number: **75 paying customers per creator per year**. We have not proved it yet. That is our first job.

SHARES

Six people. 3,000 shares.

Omar Alzori	Founder & CTO	1,200
Zlata Tuleulova	CEO	450
Iker Martinez	COO	360
Pablo Martinez	CMO	300
Sharbel Chucrallah	Head of Research	240
Ciro Gamboa	Head of Community	150
Option pool	kept back for the people we hire	300

3,000 participaciones · €1 each · **€3,000 share capital**. We count in shares, not percentages — shares do not move when we raise.

Two ways to get users.

ONE

Creators

Someone the audience already trusts says our name. Small numbers, high conversion.

TWO

TikTok and Instagram ads

Big numbers, and we pay for every one. We test audiences, creatives and messages.

We do not assume a percentage converts — **we measure it.** Views, clicks, sign-ups, subscriptions, what a customer costs, whether they stay. What works, we scale.

OUR CONTENT CREATOR

Ali. 24,400 followers.

24,400

people who already trust him

20%

of every subscription he brings us

0%

of the courses he sells himself — that stays his

We called him for 25 minutes. **He said yes.**

**Not a workout library. The coach
in your pocket.**

You bring the passion. We bring the plan.
