**Tickets, sprints, specs, code review, deploys. A real product team.**

# Two people. One problem.

THE BEGINNER

**Same 3 machines**

**four weeks in**

Nobody ever told them what else to do.

THE ONE WHO KEEPS TRYING

**63 of 100**

**quit before month three**

They show up. Nothing holds the weeks together.

**The same missing thing**

**One never learns what to do. The other never gets a reason to come back. A plan fixes neither on its own.**

# Tell it your goal. **It coaches the rest.**

**Plan. Train. Fuel. Adapt.** Train hard and eat like it was a rest day and the week was wasted — so the food target moves with the session.

# Three quadrants taken. **One empty.**

You buy a logger, then you buy a plan — and you are still training alone. The corner you were heading for was empty.

# €20M in Barcelona. €6M is ours.

We start in one city, not in a country.

**Seventy-one thousand subscribers in one city. That is the number we actually have to earn — everything outside it is why the number can keep growing after.**

# It is built. This is it running.

iOS and Android, live today. Plans, live sessions, nutrition targets and a weekly league — not a prototype.

# Ten people use it. **Three told us what to fix.**

Ten active users today. We sat down with three of them and asked what was wrong.
