

Your coach. Every set.

An AI personal coach for the gym. Not another workout plan and not another tracker — it coaches you through the session and adapts to what you actually do.

WHO STRUGGLES AT THE GYM

Two people. The same missing thing.

THE BEGINNER

- 1 Walks in without a plan**
They do not really know what to do once they are through the door.
- 2 Copies it off a screen**
Exercises from TikTok and YouTube, one at a time. No structure holding them together.

THE EXPERIENCED LIFTER

- 1 Knows how to train**
The technique is not the problem. They have been doing this for years.
- 2 Tracks into four places**
Notes, a spreadsheet, two apps. Everything is recorded and nobody reads it back to say what should change.

THE GAP

Different problems, one missing piece: **a coach**. A personal trainer solves it — and prices almost everyone out.

WHAT IT DOES

Tell it your goal. **It coaches the rest.**

You tell it your goal

Your experience, and the equipment you can actually reach.

It stays with you through the session

Log the set, it runs your rest and tells you what is next.

It learns what you actually did

Not the plan it wrote — the sets, the reps and the weight you really moved.

Next week adapts

The programme changes to match the lifter you turned out to be.

THE LOOP Plan. Train. Learn. Adapt. Every week it knows a little more about you than the week before.

COLOUR WITH A JOB

We did not pick a palette. We borrowed one.

25 KG

The brand

Heaviest plate on the bar. Every primary action is this red.

20 KG

Information

Neutral facts: your history, your numbers, anything quiet.

15 KG

Heat

Time-sensitive: the rest timer running, the streak about to break.

10 KG

Done

Finished sets, targets hit. Green is earned, never decoration.

THE SLOGAN

Your coach. Every set.

We are not just helping you plan the workout. We are there while you do it.

HOW WE SAY IT

Show the product. Then get out of the way.

Plan.

Your workout is built around you — your goal, your week, your equipment.

Train.

Your coach guides you through every set and runs the clock between them.

Adapt.

Your training changes based on the progress you actually made.

FOR BEGINNERS

“Never walk into the gym wondering what to do.”

FOR EXPERIENCED LIFTERS

“Stop guessing whether your training is working.”

SIX PEOPLE, SIX PLATES

Not a solo project **any more.**

CEO

Zlata Tuleulova

Owens the direction, the story and the deadline.

FOUNDER & CTO

Omar Alzori

7 years an engineer. Government systems in Iraq still serving millions of transactions.

COO

Iker Martinez

Turns the plan into a week: who ships what, by when.

CFO

Sharbal Chucrallah

Pricing, unit costs, and what Pro has to be worth to a student.

CMO

Pablo Martinez

Positioning, and the message each segment actually hears.

HEAD OF COMMUNITY

Ciro Gamboa

The first users, the gym floor, the feedback loop.

HOW WE WORK Tickets, sprints, specs, code review, deploys — **a real product team, for three weeks.**

WHERE WE ACTUALLY ARE

We are not claiming product-market fit.

We have the product, the brand and the positioning. Now we test the market: put Heaft in front of real beginners and real experienced lifters, find out who actually needs it, and let that shape what we build next.
